### ABOUT ME

I am a full remote web developer consultant. I deal with web development, from design to coding to maintenance. I specialize in front-end and back-end technologies, with a particular interest in innovation and new technologies.

### WORK EXPERIENCE

[ 2008 – Current ]

#### Freelance

##### *NinjaCoding*

**City:** Full Remote

Freelance activities, from 2022 becomes NinjaCoding, a personal startup for the development of web and mobile applications, IT consulting and training.

[ 2022 – Current ]

#### Full Stack Developer

##### *NS12 S.p.A.*

**City:** Full Remote | **Country:** Italy

I have developed web and mobile applications for the management of business processes, startups, and innovative projects. I have used technologies such as Angular, React, React Native, NestJS, StrapiJS, Node.js, MongoDB, MySQL, PHP, Prestashop, and Cloud Computing. Among my most significant projects, I have worked on large projects for small and medium-sized enterprises (SMEs) and for public administration (PA). These projects have included the creation of tailor-made solutions to optimize operational efficiency and improve interaction with end users.

[ 2010 – Current ]

#### Docente

##### *Associazione Imforma*

**City:** Corigliano-Rossano | **Country:** Italy

As a web development instructor, my main role is to educate and train students on the various aspects of web development. This includes designing, programming, and implementing websites and web applications using modern technologies and industry best practices.

[ 2019 – 2023 ]

#### CEO

##### *Codex Agency SRLS*

**City:** Corigliano-Rossano | **Country:** Italy

I was a founding partner of Codex, a digital marketing and consulting Web Agency, where I also served as an Angular developer.

With solid experience in front-end development, I focused on creating dynamic and interactive user interfaces that enhanced the user experience and optimized the performance of web applications.

[ 2015 – 2020 ] **Full-Stack Developer**

***NS Power S.r.l***

**City:** Full Remote | **Country:** Italy

I have worked intensively in front-end development with Angular and back-end development with Node.js, creating robust and scalable web applications. I have designed, assisted, and developed dozens of portals using various CMS and frameworks. I have been involved in the design and development of components using PHP5, MySQL.

I have worked with the most popular content management platforms such as Joomla, WordPress, Magento, and Drupal.

I have studied and applied innovative techniques for SEO positioning.

Furthermore, I have used graphic tools like Adobe Photoshop and Adobe Illustrator for creating graphic drafts, wireframes, web elements, and vector graphics.

I have gained experience in the installation and maintenance of Linux servers dedicated to web development.

[ 2008 – 2010 ] **Developer & Network System Administrator**

***Tagete S.a.s.***

**City:** Cosenza | **Country:** Italy

I worked as a developer and in cyber security at the public entity "Province of Cosenza" on behalf of the company Tagete. Throughout the entire period, activities were carried out including:

Management software development

Linux/Windows system administration, Client/Server

Client/Server IT security

Infrastructure and Solutions

These tasks were diligently carried out by a small team (6 / 7 people) over a vast territory and with hundreds/thousands of both client and server machines.

[ 2010 – 2013 ] **Web Developer**

***Longo&Longo***

**City:** Cosenza | **Country:** Italy

Design, assistance, and development of dozens of portals using CMS/frameworks. Design and Development of components using Php5, Mysql, JQuery. Use and Development on the most popular content management platforms: Joomla, WordPress, Magento, Drupal. Web page optimization activities for SEO, accessibility, and usability (W3C). Study of innovative techniques for positioning (SEO). Use of Google Analytics - Google Webmaster tools. Use of graphic tools Adobe Photoshop

and Adobe Illustrator, for the creation of Graphic Drafts, Wireframes, Web Elements, Vector Elements. Installation and maintenance of Linux and Windows servers aimed at web development. Training interns from the Computer Engineering faculty of Unical and others, in the use of web techniques and technologies. Problem Solving. Teamwork, even in rather large teams.
